

Anpeng

PU-Mesh

Square PU-Mesh

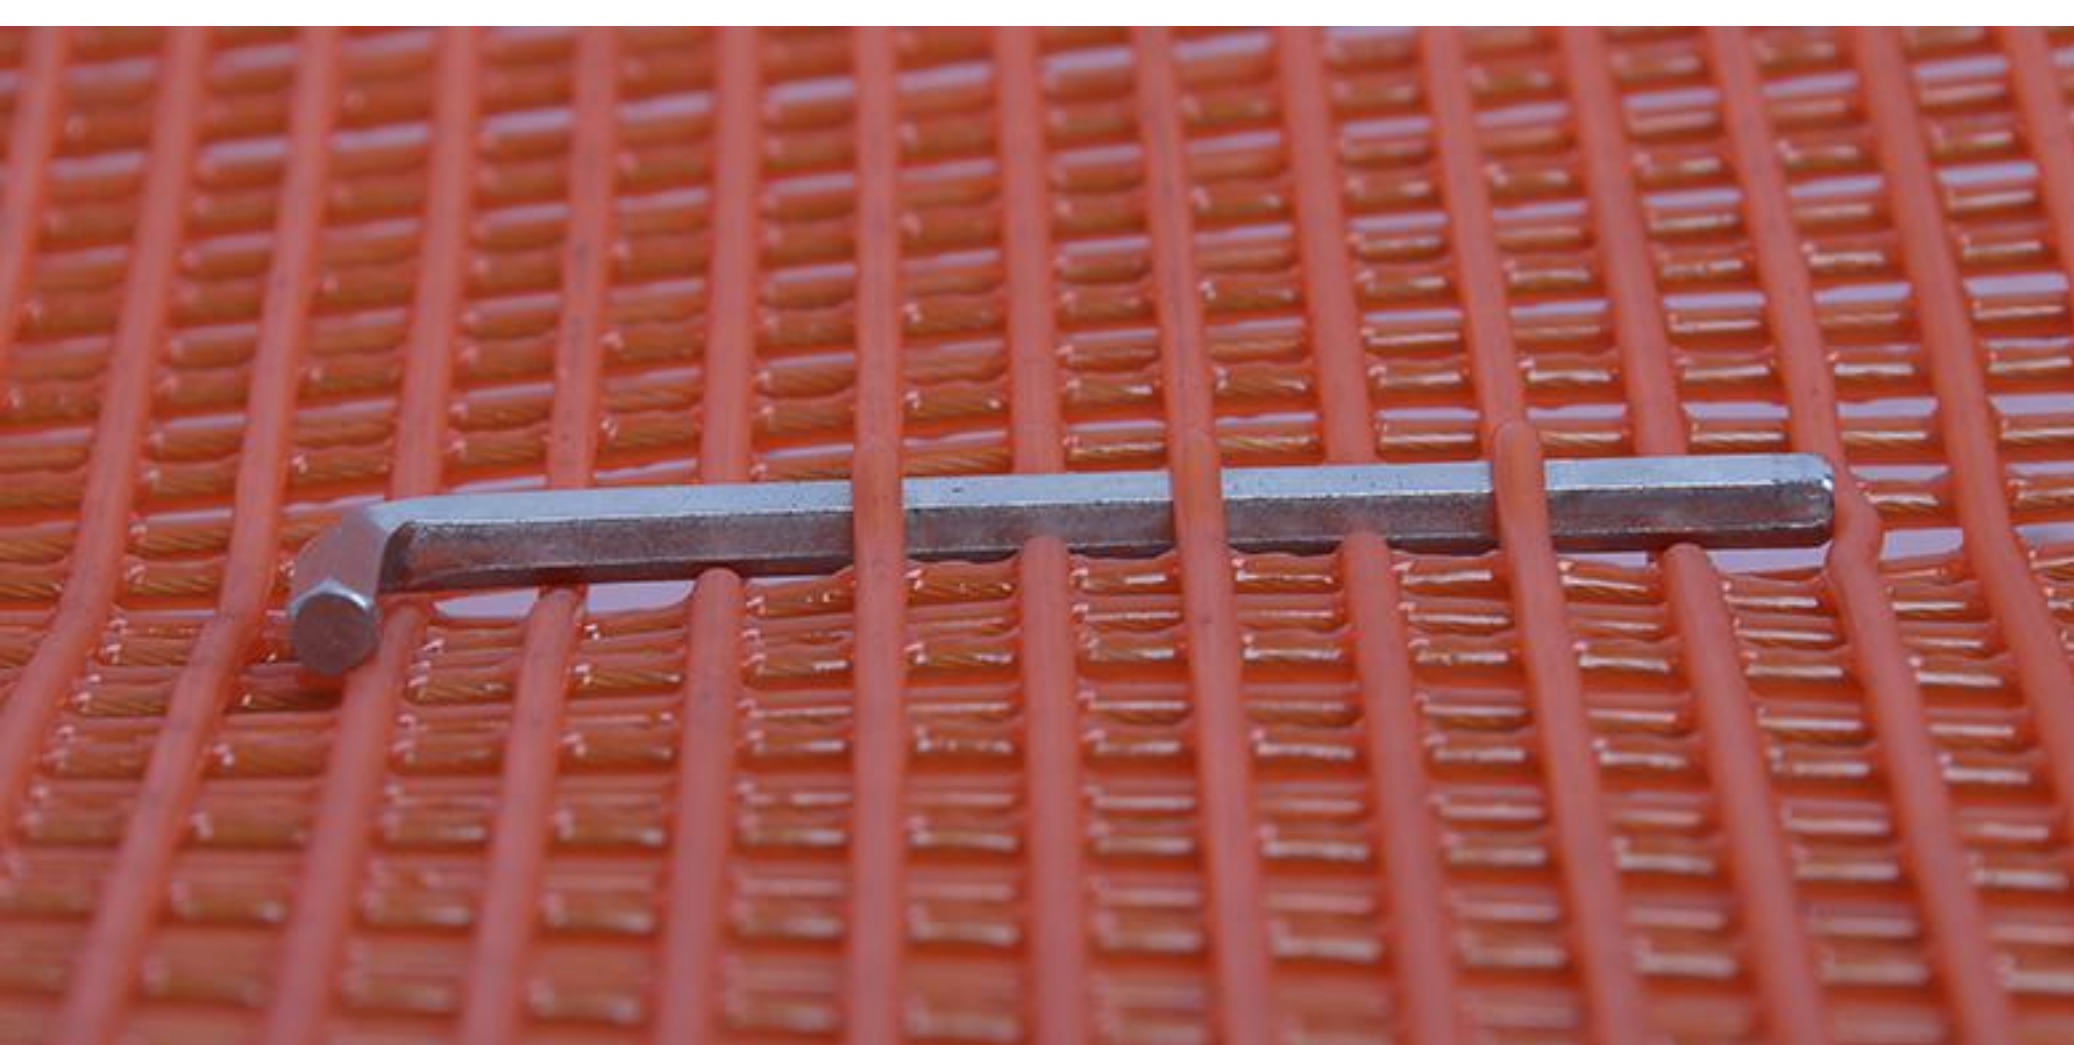

Square PU-Mesh

Fully Welded

- Light and flexible, which makes the PU-Mesh extremely impact resistance.
- Strong corrosion resistance and excellent wear resistance.
- It has excellent performance in harsh environment with good resistance to various acids, alkalis, and organic solvents.
- Opening sizes from: **1.5mm~50.0mm**
- No modifications required to screen deck, suitable for molded hooks, welded hooks or customized to specific application. Super easy to install just like your regular screens.

Partially Welded

Partially Welded

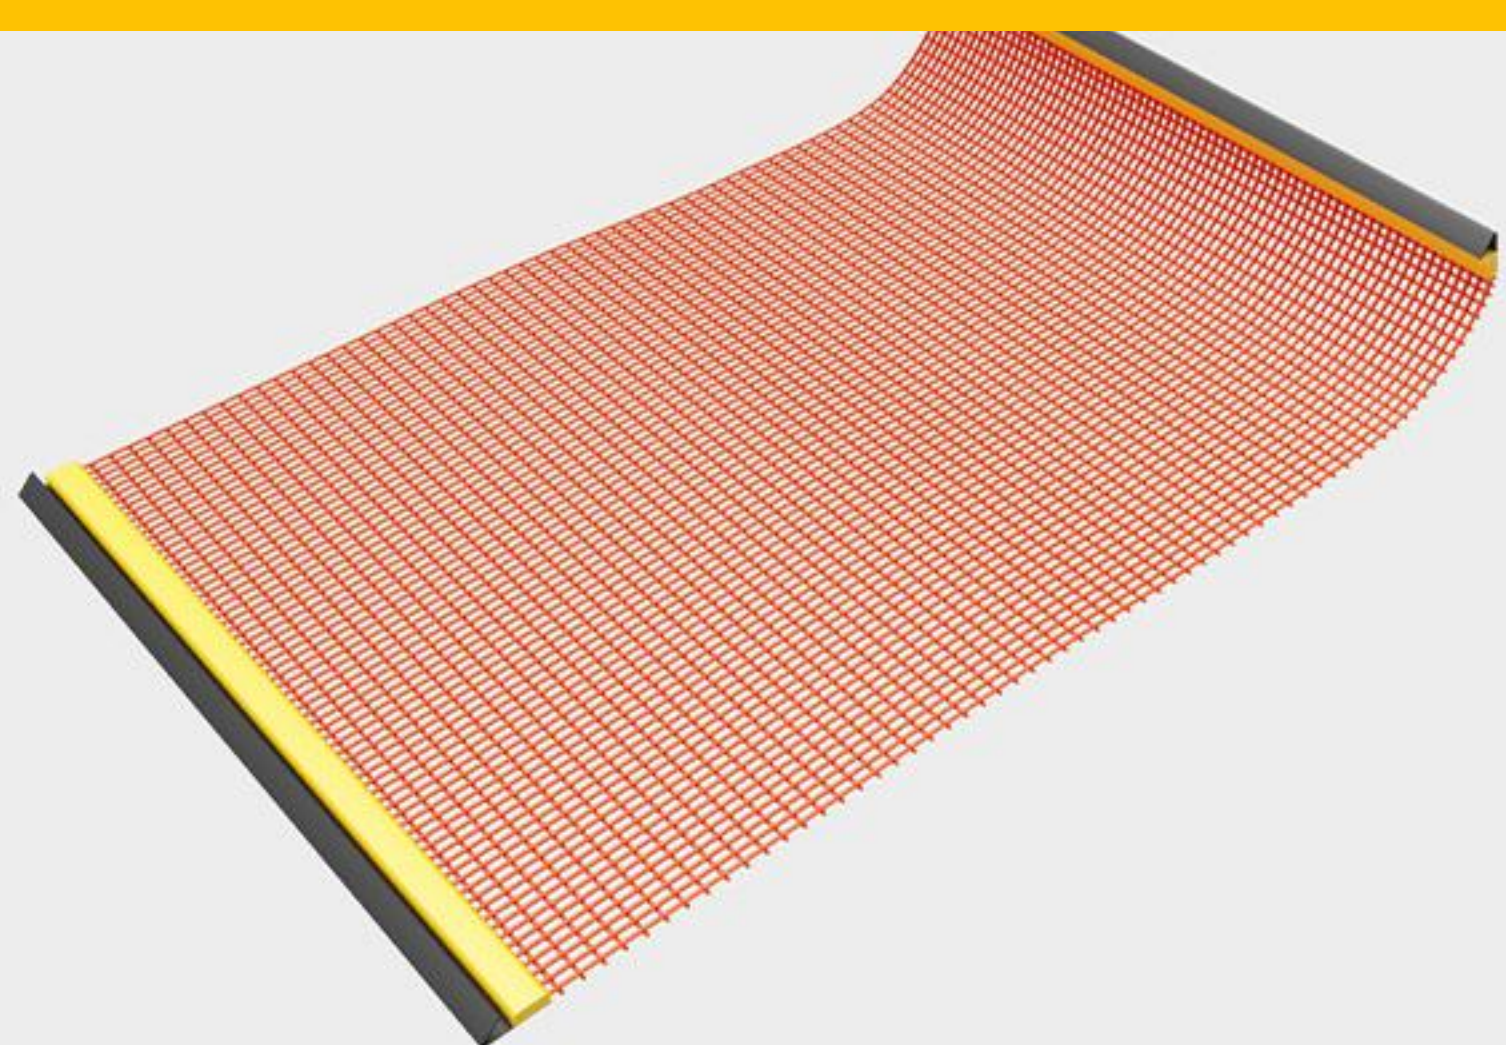

We also customize Partially Welded PU-Mesh upon request. The wires on this type of customization are not fully welded, they are partially welded to boost that self-cleaning and anti-clogging effect even more.
